OFFICE OF CARROLL WHITAKER
ATTORNEY.

Hilo Hawaii.

Hilo, Hawaii, June 7, 1901.
Dear Sirs—In my innocence I purchased in Hilo a jar of your
PIN-MONEY PICKLES
(put up by Mrs. E. G. Kidd, Richmond, Virginia.)

It brought me great trouble, and one of three things must occur:

1. You must stop making them; or,
2. I must get them at less expense; or
3. I'm a ruined man.

Since my first venture I've had many "jars." My family from early morning "Pickles;" neighbors ring the doorbell and shout "Pickles;" relatives visit me in expectation of "Pickles." Your pickles are my Nemesis. Please, dear sir, quote them by the keg, barrel, hoghead, ton or shipload, and "preserve" me. Yours very truly,

CARROLL WHITAKER.

COMMERCIAL.

NEW YORK, July 6.—The Washington correspondent of the Herald says that notwithstanding the official secrecy surrounding the recent Russian communication, replying to the note addressed by Secretary Hay to Count Cassini, regarding the tariff question, it is learned that Russia has intimated her willingness to remove the retaliatory duties she has applied upon American imports provided the United States repeals the order issued by Secretary Gage, imposing the countervailing duty upon Russian sugar. It is plain that Russia regards the sugar question as the crux of the whole controversy.

RECIPROCITY WITH CUBA.

NEW YORK, July 6.—Representative John Dalzell of Pennsylvania, a member of the Ways and Means Committee, is quoted in a Washington dispatch to the Tribune as saying:

"Tariff concessions to Cuban products will be the next serious question with which Congress will have to deal. It will be a very important question and will have to be dealt with broadly. The difficulties in the way are readily apparent. The Cubans will ask a market for their sugar. If we can, as Secretary Wilson of the Department of Agriculture asserts, produce in this country from beets raised by our farmers all the sugar we consume, there is a problem right away. The beet sugar industry is extensive and growing. The farmers engaged in raising the beets and the men who turn the raw material into the finished product by the investment of capital in manufacturing plants will insist upon protection.

"Then there are our own citizens who will want less restricted commercial relations with Cuba. It is not to be expected that the Cubans will admit our dairy products, our flour and meat, our machinery, agricultural implements, boots and shoes and clothing into their country upon less favorable tariff terms than we give them for their staple products. As I said, it is a broad question and will have to be handled skillfully."

WORK DELAYED ON THE HACKFELD BUILDING.

Finishing work on the Hackfeld building will be delayed considerably on account of the destruction of the hardwood material which was recently burned in the bark C. D. Bryant. The bark brought a large consignment of wood for wainscoting, doorways and doors. The architect, Traphagen, will duplicate the order and hopes to have the new material here in a few weeks. The stone-work has been completed and plastering is being done. The dome is being made ready for its final coating.

London Beets—June 6th, 9s 4 1/2d; 7th and 8th, 9s 3 1/2d; 10th, 9s 3d; 11th, 8s 2 1/2d; 12th, 9s 4 1/2d; 13th, 9s 3 1/2d; 14th, 9s 3d; 15th, 9s 2 1/2d; 16th, 9s 3d; 17th, 9s 2 1/2d; 18th, 9s 3d; 19th, 9s 2 1/2d; 20th, 9s 3d; 21st, 9s 2 1/2d; 22d, 9s 3d; 23d, 9s 2 1/2d; 24th, 9s 3d; 25th, 9s 2 1/2d; 26th, 9s 3d; 27th, 9s 2 1/2d; 28th, 9s 3d; 29th, 9s 2 1/2d; 30th, 9s 3d.

London Cable—June 29th quotes Java No. 15 D. S., 11s 6d; fair refining, 10s 3d; same date last year, 13s 6d, and 12s 3d respectively. July beets, 9s 3 1/2d, against 11s 3d same time last year.

Stock—Willet & Gray report June 27th, United States four ports in all hands, estimated June 26th, 270,799 tons, against 155,129 tons same time last year. Six principal ports Cuba, estimated June 25th, 142,000 tons, against 61,383 tons same time last year. Total stock in all principal countries, by cable June 27th, at latest uneven date, 1,707,799 tons, against 1,390,074 tons; increase over last year, 317,725 tons.

Total Sugar Crop of the World—Estimated grand total cane and beet sugar to June 27th, 9,531,881 tons, against 8,474,985 tons last year; estimated increase in the world's production, 1,056,896 tons.

Eastern and Foreign Markets—A quiet, and generally featureless market for raws has been the rule throughout the month now in review, while latest mail advices from New York, under date of the 29th ultimo, indicate firmness without any special indications. Arrivals were heavy during the early portion of the month of June, but latterly have been more moderate; however, there appears to have been at all times but slight inquiry for raws, although it was expected that a more vigorous demand would follow any renewed activity in the refined sugar market. Quotations for European beets have varied but slightly; nevertheless, evidence of improvement is revealed by latest reports, in spite of the fact that the market has received no support from buyers in the United States. The dull tone of the refined sugar market formerly prevailing, gave way to a healthy activity throughout the 24th and

25th ultimo, when prices were down to the lowest level, and even after the advance of five points announced on the 26th ult., the demand has been good, more particularly in the shape of withdrawals under contracts. Messrs. Arbuckle Brothers, while bringing their prices down to the level of the other refiners on the 24th ult., did not follow the subsequent advance, and continued to take orders on a basis of five points below the other refiners; nevertheless, it is understood that in some instances list prices have been shaded somewhat to meet the same. In Cuba only two estates remain grinding, and while the rain which has fallen over the island interrupted labor in the fields in some sections, nevertheless, the general effect has been to benefit the cane recently planted. In Java, however, the heavy rains reported there are interfering with grinding, and advices received by cable indicate that the crop will be 10 per cent under that of last year, in which event, judging from former estimates, it will not exceed 650,000 tons.

California Beets—Late reports indicate a good crop, amounting to about 95,000 tons, of which the greater portion will be turned out as white sugar. Charters—Freights have somewhat improved since our last advices, and tonnage "to arrive" has been quite freely taken at rates varying from 37s 6d to 39s 3d wheat or barley; August-September loading, depending upon size and time of arrival.

Lumber—Freights continue quiet, and we quote from Sound, 52s 6d to 55s, West Coast; 40s, Sydney; 47s 6d, Melbourne or Adelaide.

Exchange—Sixty days, London, \$4.86; demand, \$4.83 1/2; ten days sight, \$4.88. New York, regular, 10c; telegraphic, 12 1/2c.

Coffee—The market for all coffees is still very dull, and there is at present absolutely nothing doing in Hawaiians. Holders are still asking prices as quoted in our last, but there is no business being done. Quotations are nominal, as follows: Good current, 8 1/2c to 9 1/2c; good washed, 10c to 11c; prime washed, 11 1/2c to 12 1/2c; fancy washed, 13c to 14c; good to prime peaberry, 3c to 12c.

Rice—The market is quiet but firm, the bulk of transactions reported have been in domestic from Japan seed. Desirable grades of this rice have advanced in price from 3/4c to 1/2c. We quote Louisiana, 3 1/4c to 6 1/4c; domestic, from Japan seed, 3 1/2c to 6 1/2c. The new crop in the south promises to be a large one, but there will not be much harvesting before October. Imported Japan is in light demand at 4.65c, duty paid.

AN ENORMOUS SUGAR BEET CROP.

SUISUN, June 29.—The California and Hawaiian Beet Sugar Company, who have leased thousands of acres of land in Solano county for raising sugar beets, report that the crop will be an enormous one this year. This success means the permanent establishment of the sugar beet industry in Solano county.
